STAT

Senator Ferguson has turned over to Mr. Pforzheimer a letter from a constituent attacking the National Committee for a Free Albania as "a bunch of professional fakers, lazy loafers and criminals of the lowest class." He further alleges that [ ] of the Committee was "on the payroll of the United States," and in a recent speech [ ] "spoke for over one hour just to let us know (indirectly) that he was an informer for some branch of the Federal Government; as news from Albania, he told us that they had proven themselves when last summer they did throw a bomb in the Russian Embassy in Albania with the help of the United States of America."

STAT

The constituent requested that Senator Ferguson turn this matter over to the Senate Internal Security Subcommittee, but the Senator told Mr. Pforzheimer that in view of the security implications to CIA, he felt the matter was too serious to have bandied about and was turning the file over to us. He has asked for some background on this incident and Deputy Director/Plans is looking into it.
